## Hardware and Software Build

Part No.	Description	Hardware Release	Software Identity	Software Release
<b>SOFTWARE</b>				
	AADvance DTM - HART	N/A		v1.3
T9030	OPC Portal	N/A	354190	1.20.508
T9082U	IEC 61131 Workbench, USB, 1 User, 1 Controller License	N/A	354130	1.20.518
T9082D	IEC 61131 Workbench, Hard Drive, 1 User, 1 Controller License	N/A	354130	1.20.518
T9083U	IEC 61131 Workbench, USB, 1 User, Unlimited Controllers License	N/A	354130	1.20.518
T9083D	IEC 61131 Workbench, Hard Drive, 1 User, Unlimited Controllers License	N/A	354130	1.20.518
T9084U	IEC 61131 Workbench, USB, 5 User, Unlimited Controllers License	N/A	354130	1.20.518
<b>HARDWARE + FIRMWARE</b>				
T9120	Euro Processor Module	K15 (see Note 1)	354720 354700 354260 354280 390370 354210	v1.001.102 (Build 0102) Build 102 Build 152 Build 157 Build 323 Build 159
T9110 ControlFLASH	Firmware for the Euro Processor Module	N/A	354400 354170 354260 354280 390370	v1.0032 - (Build 0308) Build 308 Build 152 Build 157 Build 325
T9110 Recovery ControlFLASH	Recovery Firmware for the Euro Processor Module	N/A	354720 354700 354260 354280 390370 354210	v1.001.103 (Build 0103) Build 103 Build 152 Build 157 Build 325 Build 160

<b>Part No.</b>	<b>Description</b>	<b>Hardware Release</b>	<b>Software Identity</b>	<b>Software Release</b>
T9501	Euro Digital Input Module, 24 V dc, 8 Channel, Isolated	G10	354080 354250 354270 390450	Build 158 Build 174 Build 180 Build 152
T9531	Euro Analogue Input Module, 8 Channel, Isolated	G10	354080 354250 354270 390450	Build 158 Build 174 Build 180 Build 152
T9551	Euro Digital Output Module, 24 V dc, 8 Channel, Commoned	G10	354270 390470	Build 160 Build 156
T9581**	Euro Analogue Output Module, 2 Channel, Isolated	G9 H9	354270 354440 354450 390490	Build 159 Build 150 Build 150 Build 151

\*\* **Note:** The Analogue Output module is not safety related but has been shown to be interference free.

---

**NOTE** The firmware must be upgraded using the ControlFLASH files listed in the above table.

---

## Enhancements

None: This is the first certified release of the AADvance Eurocard Product.

## Corrected Problems and Anomalies

None: This is the first certified release of AADvance Eurocard Product.

## Restrictions

The following restrictions apply to this release.

- **Importing/exporting to/from Excel**

The Workbench provides the option to export/import to and from Microsoft Excel, this function will only work fully when using Excel 2007 or above. If a user has an older version of Excel they still have the option to export/import to and from CSV files.
