Compact Control Builder AC 800M Product Guide

Version 6.0

Power and productivity
for a better world™

Table 32. S100 I/O (Continued)

Name	Description
DSDO 115	Digital output board, 32 outputs
DSDO 115A	Digital output board, 32 outputs, OSP control
DSDO 120	Digital output unit. 16 channels, 24-48 VDC. 1A. Galvanic isolation between channel and system.
DSDO 130	Digital output board, 16 relay outputs 24 - 240 VAC/VDC
DSDO 131	Digital output board, 16 relay outputs 24 - 240 VAC/VDC
DSDO 140	Digital output unit. 16 channels, 48-240 VDC. Galvanic isolation between channel and system.
DSAO 110	Analog output board, 4 outputs
DSAO 120	Analog output board, 8 outputs
DSAO 120A	Analog output board, 8 outputs, OSP control
DSAO 130	Analog output board, 16 outputs
DSAO 130A	Analog output board, 16 outputs, OSP control
DSAX 110 DSAX 110A	Analog input/output board, 8 inputs 8 outputs
DSDP 010	Absolute binary decoder with hardware strobe, 2 channels
DSDP 140B	Positioning control board for one positioning loop
DSDP 160	Loop transducer interface board, 4 channels
DSDP 161	Loop transducer interface board, 4 channels
DSDP 170	Pulse counter board, 4 channels
NOTE: 1. Product Revision PR:B or later.
