Siemens A5E32100313 — English Model Verification

Order-stage identity sheet for the listed Robicon drive spare part.

Field	Verified English record
Manufacturer	Siemens
Exact listed part number	A5E32100313
Listed hardware role	24 V DC User I/O Board
Receiving platform	Robicon Perfect Harmony GH180 drive
Associated equipment record	6SR0960-0CC07-1 — confirm against the supplied unit and project record

Source

Source basis: the supplied product record, exact model marking and receiving-system context. No accessible public Siemens exact-model manual was confirmed during this review.

Source boundary: This is an English order-stage verification sheet, not a Siemens manufacturer manual. Do not infer channel counts, terminal assignments, electrical limits or interchangeability from the family name. Confirm the supplied nameplate, board revision, connectors and current drive documentation before replacement.
