ABB GJR2372600R1515 / 87WF01G-E — English Technical Reference

Exact-model data transcribed from the publicly indexed ABB Module and Application document.

Field	Verified English record
Order number	GJR2372600R1515
Type designation	87WF01-E/R1515
Replacement statement	ABB identifies R1515 as the replacement for 87WF01-E/R1212 (GJR2344700R1212).
Process-section supply	24 V DC
Bus-section supply	5 V DC
Current consumption	50 mA plus lamp current (process); 560 mA (bus section)
Typical power dissipation	5 W
Pushbutton outputs	24 V / 100 mA, short-circuit-proof
